2018

SONOMA VALLEY CABERNET SAUVIGNON

## R A S S I

## VINTAGE

Introducing the 2018 Rassi, our Sonoma Valley Cabernet Sauvignon. Named after our Rassi vineyard located on the eastern slope of Sonoma Valley just at the base of the Mayacamas Mountain range. The Leonardini family purchased the Rassi vineyard in 2012, adding it to the portfolio of great vineyards they already own. The vineyard is predominantly a gravelly sandy site, offering excellent free-draining soils that are prefect for growing Cabernet Sauvignon. Whitehall Lane and the Leonardini's are known for making elegant, sophisticated Cabernets. The Cabernet Sauvignon comes from our Rassi vineyard in the Sonoma Valley, while the Merlot comes from our Estate vineyard in Rutherford.

## WINE

Upon hand harvesting in the early morning hours, our grapes were carefully destemmed and sent to tank for a whole berry fermentation. The grapes were cold-soaked in tank at 45°F for 4-7 days, allowing for increased color, aroma, and flavor extraction. After inoculation with a select yeast, the grape must (juice, skins, and seeds) fermented at 82°F, which allowed for a hot extraction on the skins. For fermentation cap management, the juice was pumped over the skins two times per day, wetting the cap evenly for a nice healthy fermentation. After fermentation and pressing, the Cabernet Sauvignon and Merlot were aged in 30% new French and American oak for 18 months before bottling. The final blend is 85% Cabernet

Sauvignon and 15% Merlot and was bottled unfined and unfiltered.

## NOTES

This beautifully blended 2018 Rassi Cabernet Sauvignon is exquisitely balanced with excellent fruit concentration. On the nose, this wine offers bing cherries, cassis, dried cranberries, black cherry cola, mixed berry jam, and a touch of brioche. The palate offers plush but delicate tannins, sweet black plums, strawberry rhubarb pie, red raspberry coulis, toasted bread, and cocoa dust that lingers on the finish. This offering is enjoyable today but will also evolve with cellar aging through 2030.
